contact us for a live product demo.

ABOUT ZEAL GLOBAL

Zeal Global is a team of experts designing and implementing communication infrastructure and workplace solutions for businesses. Serving the Middle East, Africa, and Indian subcontinent, we offer comprehensive IT services, AV solutions, Sustainable IoT Devices, strategic vendor partnerships, and skilled professional support for optimal technology integration. With over a decade of experience and expertise, we offer cost-effective solutions for businesses to increase the quality and productivity of their workforce.

TIMELINE

Zeal Global was launched as an AV solutions supplier, in April 2014 in Ajman, UAE, with a vision to provide comprehensive IT solutions to businesses in the UAE. Since then, we have catered to corporate communication needs by providing expert advice and comprehensive solutions to improve their collaborative environment. With increasing client engagement and demand, we expanded our reach covering Dubai and Sharjah. While the pandemic hit the country, we were able to help companies stay connected with seamless AV devices without disrupting their work.

KEY SERVICES

Designing and implementing communication & collaboration infrastructure.

Comprehensive IT infrastructure services.

Pre-sales and post-sales support.

Providing sustainable IoT solutions for healthier workspaces.

VISION & MISSION

We aim to be the top choice for companies in the UAE when it comes to finding the best suitable communication devices to suit their specific business and conference room requirements. In addition to delivering the best solutions for communication and collaboration, we also promote employee well-being by ensuring healthier workspaces.

Our mission at Zeal Global is to be the preferred IT and communications solution provider for business in the UAE by offering top-notch customer service, expert advice, and personalized AV solutions.

OUR PROMISE

At Zeal Global, we are dedicated to bringing state-of-the-art technology for businesses and enterprises to increase productivity. The goal is to empower individuals to express themselves for better ideation and to improve their well-being with a healthier office environment. We strive to bring the latest and cost-effective solutions in the industry to our clients without cutting corners.
